

Plenary 1: “Finance in Vulnerable Developing Countries: Progress, Challenges and Way Forward”

Sandeep Roy Choudhury, Head – Climate finance / Sustainability & Climate Change

Having been part of various financing arrangements for community based climate change programs , I would like draw the attention of the audience to various mechanisms that can be leveraged for finance . The challenges and the MRV frameworks that these arrangements demand , and how to ensure long term sustainability & scalability programs which is also a pre requisite for climate finance as such . Also will throw a bit of light on the developments since COP21 on carbon financing mechanisms in LDCs.
