made garments sector: Progress, Challenges and Needful’.

Bangladesh (TIB) placed 10-point measures to overcome existing challenges in RMG sector.

Following Rana Plaza tragedy in 2013, Government and stakeholders took multidimensional initiatives to ensure good governance in RMG sector.

The Sample members are selected based on the demographic characteristics of the ready-made garments sector in Bangladesh. The members are selected from different types of factories like Large, Medium and Small, from different regions of the country. The survey was carried out using a questionnaire that was administered among the respondents. The aims of the survey are to create awareness about the problems of corruption and to improve the quality of governance in the sector.

The survey was conducted in different phases. The first phase of the survey was carried out in the ready-made garments sector from May 2013 to July 2013. The second phase of the survey was conducted in the leather and tannery sector from August 2013 to October 2013. The third phase of the survey was conducted in the leather and tannery sector from November 2013 to January 2014. The final phase of the survey was conducted in the ready-made garments sector from February 2014 to April 2014.

The survey was conducted in different phases. The first phase of the survey was carried out in the ready-made garments sector from May 2013 to July 2013. The second phase of the survey was conducted in the leather and tannery sector from August 2013 to October 2013. The third phase of the survey was conducted in the leather and tannery sector from November 2013 to January 2014. The final phase of the survey was conducted in the ready-made garments sector from February 2014 to April 2014.

The research report on ‘Good Governance in ready-made garments sector’ was published in April 2015.

The publication received substantial progress in fulfilling the efforts of the stakeholder, many challenges still remain. Only a limited

60% of the respondents in the leather and tannery sector and 63% of the respondents in the ready-made garments sector said that they have faced problems related to the pecuniary interests of service recipients. The remaining 23% underwent slow movement and in some cases 77% were carried out with extensive impact. Nevertheless, it is impressive to note that the respondents of the sector have gained a lot of momentum and have taken active steps to solve the problems related to the pecuniary interests of service recipients.
